

CSCI577a Fall 2006
Pre-class Exercise – Microsoft Project Tutorial

Due: As per your schedule for the COCOMO/COCOTS and MS Project Tutorial

(I.e. you have to submit the exercise in during your tutorial COCOMO/COCOTS and MS Project tutorial session)

Readings:

- MS Project 2000 tutorial
(<http://greenbay.usc.edu/csci577/fall2006/site/coursenotes/>)
- LCP guideline - LeanMBASE Guideline V1.6
(<http://greenbay.usc.edu/csci577/fall2006/site/guidelines/>)

Use the tree diagram below to generate an MS Project plan.

Hint:

The straight line arrows in the diagram indicate summary tasks – child tasks relationship, while the curved dashed lines indicate dependencies between tasks. Every block in the tree diagram includes a stereotype which indicates if it is a summary task, mile-stone or a task. Note that summary tasks and milestones do not have resources or durations.
